

Year 3 & 4 ~ 22nd June 2023

Miss Smith & Miss Rundle and Mrs Archer-Dytch

Wow, what a busy week we have all had! The Year Four children had an amazing time at Duke's Barn and the Year Three children had a great time at school, enjoying lots of different workshops.

### Year Three

This week the year three children have had a fantastic time in school. They have been very lucky to take part in three brilliant workshops. The first on Monday with Adel was great fun, the children thoroughly enjoyed the games and fitness activities. On Tuesday, the children took part in a drama workshop with Jade from Perform. Every child took part in short performances and creating freeze frames. It was wonderful to see all the children shine with confidence. Our final workshop was on Wednesday with Alick from Drumba, this was very energetic and so much fun.

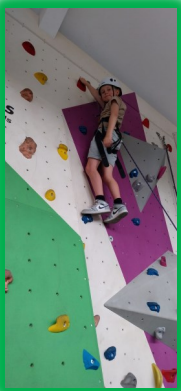

This week we have also looked at art work by Roy Lichtenstein. The children have been very creative in creating their own piece of Pop Art inspired by the artist.

### Year Four

The Year four child had the most amazing time on their first residential at Duke's Barn this week. Their favourite activities were; canoeing, the climbing wall and assault course, stream walking and weaseling. The children also really enjoyed eating toasted marshmallows and performing in the talent show - we have a lot of talented children in year four.

The children really did have the best time!

### Homework

In a few weeks time, both Year 3 and 4 will study a unit on time. We are aware that not all children can tell the time using an analogue clock. Both year groups will need to do this to complete the unit. Therefore, we ask that you help teach your child/ children how to tell the time to the minute. **Purple Mash** have time tell resources that we would like the children to go on as much as possible. For those who can not tell the time, please go onto **Mathematics/measure/Time/ Age 5-7** and complete the following exercises: Hour and Half Past, Quarters, Minute intervals and mixed. For those who can tell the time go onto **Mathematics/measure/Time/ Age 7-9** and select exercises of your choice.
