

East Bridgford, St. Peter's C of E Academy – Homework

Teacher: Mrs Archer Dytch	Subject Maths	Date: 19.5.23
----------------------------------	----------------------	----------------------

Good afternoon,

This week has been another busy week in school. We have now finished our hot write stories and completed our unit on fractions. I was delighted with the end of unit assessment results, and I am thoroughly enjoying reading the stories. I try to read them with the children, so we can discuss their progress and their new target together.

PE: We will continue to have outdoor PE on WEDNESDAY. **Indoor PE will be on Monday.** Please send appropriate kit for both indoor and outdoor PE.

Curriculum:

In our work on Emperors and Empires this week we investigated how the Romans Ruled their empire. We have learned that there were three different types of rule. Find out if your child/children can remember them.

In science we have studied the function of a leaf. A leaf has two functions. One is transpiration and the other is needed for photosynthesis. We collected and measured the width of the same species of leaf to see if the surface area was larger if the leaf grew in a shaded area. We recorded our findings on a bar chart.

In Maths, Year 3 have started a new unit on mass and capacity. Year 4 have started a new unit on decimals.

HOMEWORK:

Maths: This week the homework will consolidate this week's learning. Worksheets have been sent home with your child.

A small reminder. When a newsletter does not go on our web page (every other week) The homework for the week can be found on our web page under Homework.

Thank you.

Mrs. Archer Dytch
