

East Bridgford, St. Peter's C of E Academy – Homework

Teacher: Mrs Archer Dytch	Subject Maths	Date: 24.2.23
----------------------------------	----------------------	----------------------

Good afternoon

Firstly, can I say a huge thank you for your support with the creative homework project. The children have loved showing their volcanoes to class and school in Achievement Assembly. We had such fun on Monday watching the eruptions. I love the way they were all individual and no two volcanoes were alike. I would like to keep a few in school, but due to the space they take up I have had to send most of them home, for your enjoyment!

PE: We will continue to have outdoor PE on WEDNESDAY. **Indoor PE will be on Monday.** Please send appropriate kit for both indoor and outdoor PE.

Curriculum:

In Geography we have been putting all our knowledge and skills to good use for our Innovation part of the topic. Our task is to be part of a team of scientists, geologists and volcanologists sent to investigate the potential dangers of tectonic activity in Quito, Ecuador's capital city. The children are using the information they have gathered to write a factual report and present their findings to the city council.

In English we are looking at the features of instructions, using our text *The Firework - Maker's Daughter* as inspiration.

In science we are investigating magnets and have learned about magnetic attraction and magnetic repulsion.

HOMEWORK:

Year 4 have found division a little challenging the week. Similarly, to multiplication, it is difficult to move on until all the children understand the concept and steps required to progress. By the end of the week all the children were working independently, however, I have sent sheets home to consolidate their learning as extra practice is required. Please drop me a line in their work diary if they are still struggling and I will find a little extra time to work with them. Yr 3 have a sheet on multiplication.

Thank you.

Mrs. Archer Dytch
