

East Bridgford, St. Peter's C of E Academy – Homework

Teachers: Mrs Archer Dytch	Subject: Geography	Date: 24.11.23
-----------------------------------	---------------------------	-----------------------

Good afternoon,

It was great to see so many of you at Parent's evening this week. I do love sharing how well the children have settled in and for you to see their fabulous work. As you will have noticed, we seem to get through an awful lot in one week and everyone has made such a lot of progress. Last Friday, it so lovely to also see children covered in spots or wearing Pudsey ears! We have had lots of fun activities relating to Children in Need and I believe the school raised over £500 – a school record!

Curriculum:

We have had such a busy week this week, learning about how sound travels in sound waves in science. Each week I choose a Scientist of the Week, the scientist gets to wear our science lab coat in the following lesson and assist me teach the lesson! This week it was Poppy. S - well done!

In history, we are finding out all about the ferocious Viking, they even killed one person on their very first visit to Britain before quickly leaving to go back home. In RE we are finding out what Christians have learned for the Creation story. This week in English we have been looking at the features of a story with suspense, learning new vocabulary and focusing on writing sentences using commas. In maths we have been coving work on our 3, 6 and 9 times table. As we are all learning our tables during maths lessons, I have decided not to send maths homework this week but send geography instead.

PE – Outdoor with Harvey. **Please remember warm clothing and to take earring outs on PE day or bring plasters in to cover them. Hair must be tied back too to prevent anyone getting hurt.**

HOMEWORK:

In **Geography** we have been looking at significant physical feature of the UK. Each child has chosen a feature, for example, the River Trent, the Pennines, Loch Ness, Orkney Islands, Snowdonia, Anglesey or Rathlin Islands. I would like the children to research their feature using either books or the internet. I would like them to include how high, long or large it is. What the landscape like, what kind of wildlife can be found there, how do humans interact with it, is the feature famous for anything and has the feature's appearance or use changed over time? They can present their work any way they choose.

Thank you for your continuing support with homework, spellings and times tables. Please remember to fill in the work diaries when you have heard your child read, practice their spellings and times table. Take Care tokens will be given for those who consistently show me their diary on Friday.

Unless otherwise stated all homework must be handed in the following Friday.

Kind regards

Mrs. Archer Dytch
