### Geography riddle

Before Mount Everest was discovered, what was the highest mountain in the world?

(Answer at the bottom of the page.)

### Flags of the world

Draw the flag of **India** (places - Asia - India)

### Indian facts

(Places - Asia - India)

What is the capital city of India?

What does the white on the Indian flag stand for?

Name the famous mountain range found in the north of the country.

Asia is a super-size continent: with 48 countries, it covers about one-third of all the land in the world. There are more people living in Asia than in any other continent! Some parts are really busy and crowded – especially the cities. But Asia also has large, empty deserts, and towering snowy mountains, including Mount Everest, the highest peak in the world.

Fancy seeing some other Asian sights? Don't miss the Taj Mahal in India or the Great Wall of China. The food is tasty too – Asia's the home of curry, rice and noodles.

Asia

Giant panda

Taj Mahal, India

### Izzi's Facts
