Feeling sporty?

The Olympic Games is the biggest sporting event in the world! The Games take place every four years, in a different city each time. Over 10,000 athletes, from more than 200 countries, take part in almost 400 different events.

In 2016 the Olympics will be held in Rio de Janeiro, in Brazil. With its world-famous beaches, beautiful bays and carnival processions, Rio will be a spectacular host for the Games.

On your marks, get set, go – it's Rio in 2016

It's ancient history!

But the Olympics aren't a modern invention. They actually began thousands of years ago, in a place called Olympia in Ancient Greece. Sportsmen came from across Greece and from the other countries that Greece ruled at the time.

There were lots of sports that we'd recognise today, such as boxing, wrestling and horse-racing – but many of them were a lot rougher than they are today! There were some big differences, though. All the competitors were men and they didn't wear clothes to take part.

The ancient site of Olympia is in Greece

The ruins of Olympia: where it all began...

An athlete competes in the modern day Olympics

Did you know?

Earthquakes in the 3rd century AD destroyed most of the site of Olympia and the Games came to an end. It wasn't until 1896 that the Games officially started again. We call these the 'modern Olympics'.

The modern Olympics

The modern Olympic movement is inspired by the ancient Games. This movement of people aims to build a 'peaceful and better world' through sport.

The Olympic symbol shows five interlocking rings. Each ring represents one of the inhabited 'five continents' (the Americas are counted as a single continent according to the International Olympic Committee).

New world records are set during every Olympics. In 2012, 32 world records were broken! The Olympic Committee makes sure that everyone 'plays fair'. There are regular tests to make sure that athletes aren't using unfair drugs.

Ice-hockey at the Winter Olympics

Vinicius and Tom - Rio's mascots

Rituals and ceremonies

In Ancient Greece, a burning torch would be passed from one runner to the next in a relay, with the winner lighting a fire on an altar.

Nowadays, the Olympic torch is lit in Greece, then taken to the city where the games are held, travelling by boat and plane.

The opening and closing ceremonies are also important parts of the Games. And of course, everyone likes to watch the medals being awarded: gold, silver and bronze. In Ancient Greece, the winners would have wreaths placed on their heads.

Paralympic Games

The Paralympic Games are for athletes with disabilities. There are events ranging from archery to wheelchair tennis. The Paralympics first started in 1948, with injured soldiers from the Second World War.

Since 1960, the Paralympics have been held during the official Olympic Games. They're now a vital part of the Games: more than 4,000 athletes took part in 2012.

The Winter Olympics

The Winter Olympics are also held every four years, in between the main Olympic Games. These Olympics are for sports that need a very cold climate, like ice-skating, ski-jumping, ice-hockey and bobsleigh.

Did you know?

Olympic mascots are really popular! Rio's mascots are Vinicius and Tom – a joyful, bright mixture of Brazil's animals and plants.

How many people have competed in the Paralympics?

The number of athletes who take part in the Paralympic Games has risen over time.

Feeling sporty?

The Olympic Games is the biggest sporting event in the world! The Games take place every four years, in a different city each time. Over 10,000 athletes, from more than 200 countries, take part in almost 400 different events. About 800,000 people came to watch the London Games in 2012, with millions more viewing it on television.

In 2016 the Olympics will be held in Rio de Janeiro, in Brazil. With its world-famous beaches, beautiful bays and carnival processions, Rio will be a spectacular host for the Games. Then, in 2020, the Olympics moves on to Tokyo.

On your marks, get set, go – it's Rio in 2016

It's ancient history!

But the Olympics aren't a modern invention. They actually began thousands of years ago, in a place called Olympia in Ancient Greece. These ancient games were taken very seriously – wars were put 'on hold' so that everyone could travel safely to and from the competition. Sportsmen came from across Greece and from the other countries that Greece ruled at the time.

There were lots of sports that we'd recognise today, such as boxing, wrestling and horse-racing – but many of them were a lot rougher than they are today! There was also running, long jump and javelin. There were some big differences, though. All the competitors were men: married women weren't even allowed to watch the games! Also, the men didn't wear clothes to take part.

Rituals and ceremonies

The Ancient Greeks kept a 'sacred fire' burning in Olympia, to honour the Gods. In a relay race, a burning torch would be passed from one runner to the next, with the winner lighting a fire on an altar.

Nowadays, the Olympic torch is lit in Greece, then taken to the city where the games are held, passing through hundreds of hands and travelling by boat and plane.

The opening and closing ceremonies are also important parts of the Games, attracting thousands of spectators. And of course, everyone likes to watch the medals being awarded: gold, silver and bronze. In Ancient Greece, the winners would have wreaths placed on their heads and be treated like heroes.

Paralympic Games

The Paralympic Games are for athletes with disabilities. There are events ranging from archery to wheelchair tennis. The Paralympics first started in 1948, at Stoke Mandeville hospital in England, with injured soldiers from the Second World War.

Since 1960, the Paralympics have been held during the official Olympic Games. They're now a vital part of the Games: more than 4,000 athletes took part in 2012.

1. Draw yourself in the circle to become a detective!
2. Answer the questions below to complete your mission.

A. Tick 'true' or 'false' for the statements below.

Statements	True	False
1. The modern Olympics are inspired by the ancient Games.		
2. The five rings in the Olympic symbol represent all continents.		
3. Nowadays, the Olympic torch is lit in Germany.		

B. Circle the correct answer.

4. How many world records were broken in the 2012 Olympic Games?

- a. 400
- b. 32
- c. 5

5. Rio's mascots are a mixture of Brazil's animals and...

- a. Culture
- b. History
- c. Plants

6. How many athletes competed in the Paralympic Games in 2000?

- a. 4302
- b. 3381
- c. 2000

C. Draw a quick cartoon to show three different sports that will be played in Rio this summer.

D. How often are the Winter Olympics held?

Observer Odd needs your help!

His mission is to write a report on the facts presented in the *Olympics* text.

Answer the questions below in full sentences so that he can use the information in his report.

1. How often do the Olympic Games take place?

2. Describe where Olympia is located in Greece. Use compass directions in your answer.

3. Does the Olympic symbol represent all continents? Explain your answer.

4. What are the Paralympic Games? Explain why they are important.

5. Rename one of the subheadings given to a paragraph of text.

Inspector Izzi has a new job and needs a hand!

Her task is to write a detailed analysis of the *Olympics* text. She needs you to help her read 'between the lines' and answer the questions below in full sentences.

6. Name three sports that featured in the ancient Olympics and are still part of the Olympic Games today.

7. What do you think are three of the most important pieces of information in this text? Explain your answers.

1.	2.	3.
Because...	Because...	Because...

8. The Olympic Committee tests athletes to make sure they aren't using unfair drugs. Why might athletes take drugs?

9. Based on the bar graph, do you think that the number of athletes taking part in the Paralympics will increase or decrease in future? Explain your answer.

EXTRA MISSIONS:

- Impress your family and friends with your flag knowledge! Learn the flags of the top-performing countries from the 2012 Olympics Games. Use the sheet called *Countries to Watch!*
- Olympic flashcards - learn about countries competing in the Olympic Games. Play against your friends! Use the sheet called *Olympic Flashcards*.
- Master the Olympic country codes, to prepare for watching the Olympic Games. Use the sheet called *Olympic Country Code Master*.

1. Draw yourself in the circle to become a detective!
2. Answer the questions below to complete your mission.

A. Tick 'true' or 'false' for the statements below.

Statements	True	False
1. The modern Olympics are inspired by the ancient Games.	X	
2. The five rings in the Olympic symbol represent all continents.		X
3. Nowadays, the Olympic torch is lit in Germany.		X

B. Circle the correct answer.

4. How many world records were broken in the 2012 Olympic Games?

- a. 400
- b. **32**
- c. 5

5. Rio's mascots are a mixture of Brazil's animals and...

- a. Culture
- b. History
- c. **Plants**

6. How many athletes competed in the Paralympic Games in 2000?

- a. **4302**
- b. 3381
- c. 2000

C. Draw a quick cartoon to show three different sports that will be played in Rio this summer.

Answers will vary.

D. How often are the Winter Olympics held?

The Winter Olympics are held every four years: two years after the Olympic Games and two years ahead of the next (Summer) Games

Observer Odd needs your help!

His mission is to write a report on the facts presented in the *Olympics* text.

Answer the questions below in full sentences so that he can use the information in his report.

1. How often do the Olympic Games take place?

The Olympic Games take place in the summer every four years. Two years after a Summer Olympics, the Winter Games are held - so there's an Olympic event every two years.

2. Describe where Olympia is located in Greece. Use compass directions in your answer.

Olympia is located in southern Greece - it is found in the Peloponnese, a peninsula that is separated from the central part of the country by the Gulf of Corinth.

3. Does the Olympic symbol represent all continents? Explain your answer.

Yes and no. The Olympic rings do represent all people on the 'five' inhabited continents (the Americas are counted as a single continent) but, Antarctica isn't represented. However no-one lives there all the time!

4. What are the Paralympic Games? Explain why they are important.

The Paralympics is an international sporting event (scheduled for just after the Olympics), in which athletes with disabilities compete.

They are important because they give people with disabilities a chance to compete using the same fabulous facilities, e.g. purpose-built stadia, as able-bodied athletes and the international media coverage recognises the achievements of these inspiring athletes - the Paralympics show the world that people with disabilities can do amazing things!

5. Rename one of the subheadings given to a paragraph of text.

Answers may vary.

Inspector Izzi has a new job and needs a hand!

Her task is to write a detailed analysis of the *Olympics* text. She needs you to help her read 'between the lines' and answer the questions below in full sentences.

6. Name three sports that featured in the ancient Olympics and are still part of the Olympic Games today.

Answer may vary, might include: boxing, wrestling and horse-racing.

Answers will vary, but might include:

7. What do you think are three of the most important pieces of information in this text? Explain your answers.

1. The modern day Olympics are inspired by the ancient Greek Games.	2.	3.
Because... a lot of the sports, ceremonies and rituals that form part of the Games today were practiced in a similar way in ancient Greece, such as the torch relay.	Because...	Because...

8. The Olympic Committee tests athletes to make sure they aren't using unfair drugs. Why might athletes take drugs?

Athletes might take unfair drugs because they really want to win and they think the drugs could help. They might be under a lot of pressure to do well (everyone at home is cheering them on) and so, unfortunately, some people choose to take risks with their health. It's a shame!

9. Based on the bar graph, do you think that the number of athletes taking part in the Paralympics will increase or decrease in future? Explain your answer.

Based on the bar graph, the number of athletes taking part in the Paralympics will increase because this has been the trend so far since 1960 - 2012. Between the 1980 and 2000 Games, the number of athletes almost doubled.

EXTRA MISSIONS:

- Impress your family and friends with your flag knowledge! Learn the flags of the top-performing countries from the 2012 Olympics Games. Use the sheet called *Countries to Watch!*
- Olympic flashcards - learn about countries competing in the Olympic Games. Play against your friends! Use the sheet called *Olympic Flashcards*.
- Master the Olympic country codes, to prepare for watching the Olympic Games. Use the sheet called *Olympic Country Code Master*.
