

What have we been up to this week?

This week we have become photographers, debaters and graffiti artists. No wonder we are all feeling exhausted! The children have again had to adapt to being back at school after their 10 day isolation period and we are so proud of every single one of them for just "getting on with it". Next week we look forward to Cadburys World on Tuesday and an INSET day on Friday. What will you get up to?

English

This week the children wrote wonderful poems about "This is the day when". We saw so many wonderful ideas highlighting what caring and thoughtful children we have in our class, many relating to the coronavirus. We have also been looking at leaflets. The children looked at a variety of leaflets to see if they could spot important features. Over the next few weeks the children will be creating their own leaflets about Cadburys World.

Maths

In Maths the children have been looking at 2D and 3D shapes. The language we wanted them to remember when talking about 2D shapes were vertices (corners) and sides. When talking about 3D shapes the children should remember to use the language; vertices, edges and faces. They should also be able to identify curved surfaces and flat surfaces. Next week we will be having a go at our very own 2D shape art inspired by the famous Kandinsky.

Weekend Activity

A fantastic week for timetables and spellings. We can tell that lots of children have been practicing at home with many getting at least 12 out of 15 for their spellings and some children moving on to the next stage in their timetables. Please try and practice these throughout the week with your child(ren).

Spellings this week (in case they forget their books) are:

1. earth
2. eight
3. enough
4. exercise
5. experience
6. experiment
7. extreme
8. famous
9. favourite
10. February
