

St. Peter's Academy – Miss Walton's weekly newsletter

UKS2 Staff:

Mrs. Marston – Class 5/6
Miss. Walton – Class 5

Miss. Brownley – Class 6
Mrs. Smith UKS2 Teaching Partner

Date: Friday 10th June

A summary of this week's learning...

| Subject | Key learning points |
|---------|---|
| English | Exploring the features of websites and the importance of these features |
| Maths | Equivalent fractions, decimals and percentages |
| Grammar | Pronouns to avoid repetition |
| Reading | History of the internet reading comprehension |
| Topic | Introduction to new topic |

The final term of year 5 has arrived! I hope that you all had a safe and fun half-term.

This term is a busy one. We have started practising for our UKS2 end of year production, which is coming along nicely! The dates for this are as follows:

- Tuesday 12th July matinee and evening performance
- Wednesday 13th July evening performance

More information will be available nearer the time.

Please don't forget – the coach is leaving St Peter's at 8am on Monday 13th June for our trip to Magna Science Adventure Centre. Please make sure that children are at school promptly. Please note children need packed lunches for this.

Homework:

Topic – I am giving you two weeks to research and present your findings on a particular influential individual who contributed to the development of computer science. You may present your work as a biography, a fact file, a poster or a leaflet. A few you may want to research – Jacquard Loom, Charles Babbage, Tim Berners-Lee, Mark Zuckerberg. This will be due in **Friday 24th June**.

Maths – Ultimate times tables challenge. Children to complete as many times tables questions as they can within ten minutes. Please do not go over this amount of time!

Spelling – Children to learn the spellings from their lists / diaries. These will be tested next on **Friday 17th June**.

Have a brilliant weekend, hopefully the sun is shining!

Miss Walton ☺
