

St. Peter's Academy – Miss Walton's weekly newsletter

UKS2 Staff:

Mrs. Marston – Class 5/6
Miss. Walton – Class 5

Miss. Brownley – Class 6
Mrs. Smith UKS2 Teaching Partner

Date: Friday 17th June

A summary of this week's learning...

Subject	Key learning points
English	Features of a website, features of a survey, designing our own surveys
Maths	Decimal addition and subtraction, complements to 1, decimal calculations where the answer goes above 1
Grammar	Relative clauses
Reading	Consolidation of comprehension skills
Topic	Discussing the future of technology
Computing	Creating a timeline using shapes and Smart Art
History	History of computer science

We had a fantastic day on Monday at Magna Science Adventure Centre. Photos can be viewed here: <https://www.eastbridgfordstpeters.co.uk/magna-science-adventure-centre/>

Please continue to practise the songs for the UKS2 show! The playlist is available on my class page and also on Spotify.

Homework:

Topic – SAME AS LAST WEEK – I am giving you two weeks to research and present your findings on a particular influential individual who contributed to the development of computer science. You may present your work as a biography, a fact file, a poster or a leaflet. A few you may want to research – Jacquard Loom, Charles Babbage, Tim Berners-Lee, Mark Zuckerberg. This will be due in **Friday 24th June**.

English – The children have been writing surveys about a specific element of the school website this week. Your child has three copies of their own survey that need filling in by next Friday. These can be completed by an adult at home or a friend who uses the school website.

Spelling – Children to learn the spellings from their lists / diaries. These will be tested next on **Friday 24th June**.

Have a brilliant weekend, enjoy the lovely weather!

Miss Walton ☺
