Happy Shopper.....

Instructions

Your true love (could be your dog/cat/pet/granny) really needs spoiling this Christmas. You have decided to be super cool and do the 12 days of Christmas for them. Sadly, the Argos catalogue is no more so you can't select items from there so you will have to do your own research.

- No item must cost more than £50 or less than 50p and you will be buying the right number of the same item for each day. i.e. on the 5th day, you might buy 5 dog chews at 99p each – don't buy 5 different things.
- The items must exist (not be a figment of your imagination).
- You must illustrate each page with a drawing or photo of the item that you are buying.
- Enter the total price for your shopping in the cost column on the bill page and keep a running subtotal (ask me for help if you are stuck).
- Add the fixed rate postage and packaging to your final subtotal to get the grand total payable.

Have fun!
