

St Peter's Preschool

Topic "Why do leaves go crispy?"

Let's find out all about autumn in this exciting seasonal project.

This week we are asking the question

"What can we find in a wood?"

We will be:

- Learning our new poem "Why do leaves go crispy?"
- Examining, counting and sorting conkers, pine cones, acorns e.t.c
- Using tools and hands to manipulate textured and scented playdough to make or print leaves
- Mark making with sticks in wet sand/mud

At home can you....

- Run through the leaves listening to the sounds they make under your feet?
- Make a collection of natural objects that you find on a walk? Do they feel rough, smooth or spiky?

Let us know how you get on!
