

## St Peter's Preschool

### Topic "Why do leaves go crispy?"

Let's find out all about autumn in this exciting seasonal project.

We will be:

- using our funky fingers to put clothes peg spikes on our hedgehogs and picking up conkers using tweezers
- investigating and talking about things we see - a variety of fruit and vegetables, using magnifying glasses and tools to mash and cut them open
- following simple instructions to make bird cakes for our outdoor area

At home can you....

- do a leaf rubbing picture using autumn colours?
- find some sticks and order them from the shortest to the longest?

Let us know how you get on!
