

East Bridgford, St. Peter's C of E Academy – Homework

Teacher: Mrs Archer Dytch

Subject:

Date: 4.7. 25

Good afternoon,

Even though the school year is nearly over, we are still very busy in Maple Class with our learning activities. We've been making Roman mosaics, learning about Roman inventions, including Roman roads, baths, aqueducts and bridges - to name just a few.

Curriculum:

In English we have 'Shook hands with our' three wishes tale, ready to write our own next week.

In maths we have completed the unit on money and we are now learning about angles and triangles and direction.

ICT - Online safety - why passwords are important, asking for permission before adding photographs or information about someone else.

We have had the results back for our times table test. Mr. Tomlison and myself are incredibly proud of everyone. Your child's/children's score will be on their school report.

Thank you to everyone who has contributed to our Roman workshop, this will take place on Tuesday, but in the meantime if you wish to see some photos of the Roman shields the Year 3 children made whilst we were in Duke's Barn, they can be found in this week's newsletter on our website.

I apologise for not posting a regular letter over the past few weeks, but this is because our website has been down to be updated.

PE will be outdoors on both MONDAY and FRIDAY as the hall is being used for the Yr 6 production/ Workshops. Please send appropriate kit, shorts/leggings and a tee-shirt. Please remember to bring a water bottle in, as we need to keep hydrated in this lovely warm weather.

HOMEWORK:

To design a green house in preparation for making it next week in DT.
Please remember to bring in any materials that you would like to use.

Thank you.

Mrs. Archer Dytch
