

East Bridgford, St. Peter's C of E Academy – Homework

Teachers: Mrs Archer Dytch

Subject: Science

Date: 17.10.25

Good afternoon,

Firstly, Thank you for meeting with me over the past few days. It was lovely to see you all and share with you the successes we have achieved this half term. We have a superb class and everyone has settled in so well.

I can't quite believe we only have one week left until we break up for half term. This is coming just in time, as I think we are all feeling a little exhausted by the huge amount of work we have done this half term! Talking of which, thank you for encouraging your children to produce such 'Take Care' wonderful homework. Knowing about healthy foods and the benefits they have on our body is an important part of our science curriculum.

Next week we are looking forward to our Harvest Festival in church and we can't wait to perform our poem to you. As you can imagine we have been practising lots. Don't worry if you can't make it, I'm sure your child will be able to recite their part to you by the end of next week.

Curriculum:

We have been working hard in English following the Talk for Write format. We have looked at the features of a website article, and we are currently investigating the Wolfs side of the story. Next week, we shall practise interviewing each other and gathering eyewitness accounts. The week we return from half term we shall do the Hot Write -this will be our own report told from yet a different point of view.

Next week we shall finish our unit on Addition and Subtraction with exchange. We shall cover a short unit on measure and area before moving onto multiplication and division, next half term. In History we are learning about the Bronze Age. In science we have learned about the three different joints (see homework). In RE we have continued our work on The Lord's Prayer, following our visit to the church last week and in IT we are coding using 2Code in purple Mash - the children can go on this anytime to develop their learning further.

HOMEWORK:

I have sent home a template of the skeleton and 9 split pins. I would like the children to make a moving puppet. There are only holes for 5 split pins, so the children will have to cut the elbow and knee joint and improvise. They have watched a video to show them how to do this. I would also like them to label the bones in pencil on their puppet when they have finish. Whilst they are making the puppet, please ask them to explain what they have learned about the different joints and how they work.

Please can the puppets be returned in the plastic wallet. Thank you

Unless otherwise stated all homework must be handed in the following Friday.

Thank you.

Mrs. Archer Dytch,

To be returned by: 24.10.2
